

### **Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

### **Listing of Claims:**

1. (Currently amended) An inkjet printer comprising a printer cartridge replaceably receivable in a recess of a cradle in said printer, said printer cartridge comprising:
  - a plurality of ink storage reservoirs;
  - an ink delivery member defining a plurality of ink delivery channels;
  - a pagewidth printhead in fluid communication with the plurality of ink storage reservoirs by means of the one or more printing fluid delivery channels;
  - power and data contacts for electrical connection with complementary power and data contacts on said cradle when said cartridge is received in said cradle; and
  - printhead maintenance means comprising a rotor element for maintaining proper printhead functioning, said rotor element being rotatably mounted adjacent and parallel to said printhead; andsaid cradle comprising:
  - said complementary power and data contacts; and
  - drive means for driving said printhead maintenance means.
2. (Previously presented) An inkjet printer according to claim 1, wherein said cartridge includes an elongate body housing the plurality ink storage reservoirs.
3. (Previously presented) An inkjet printer according to claim 2, wherein the pagewidth printhead is attached to the elongate body.
4. (Previously presented) An inkjet printer according to claim 3, wherein the ink delivery member is formed from Liquid Crystal Polymer and extends the length of the printhead.
5. (Previously presented) An inkjet printer according to claim 2, wherein the pagewidth printhead is attached to the elongate body by means of the ink delivery member.
6. (Cancelled)
